

National disaster

Focus on developing a relationship

FIRST ORDER OF BUSINESS

Create a committee of safety by first voting in the following officers (1) Chairman (2) Co-Chairman (3) Secretary (4) Treasurer (5) Chairman for (sub) Committee of Correspondence.

Plan and actively seek out membership with a goal of seeking one (or more) members from each town and cities within your county. This may take a while continue the following steps as you build your membership.

For more info on 1st order of business see document "How to Form a Committee".

SECOND

Define the purpose of the COS

THIRD

Discuss the following issues establishing a friendly and positive relationship with the County Sheriff and local government and make resolutions. Add new issues after establishing the following first. Do not address any concerns like Agenda 21, Common Core, etc. with local governments until you develop a positive relationship first.

FORTH

Meet with Sheriff tell him that We the People have initiated a "Committee of Safety" [COS] because we are concerned with local government adherence to the Constitution thereby, making sure that our county and town governments are prepared for a national disaster and that we are approaching it constitutionally.

Give the Sheriff a copy of the COS power point video and a copy of the 36 page document titled "Power and Authority of The County Sheriff".

Assure the Sheriff that we know that our county has professional emergency services such as town fire departments and rescue teams; town, city and state police departments and most importantly a County Sheriff who is the "Chief Administrator and Law Enforcer" of his county. And that they have well planned protocols and integrated communications in place to deal with disasters such as storms, power outages, floods, public health emergencies, aviation disasters and chemical and biological emergencies. And therefore we are not planning to reinvent the wheel or interfere with their professional decisions and protocols. We in fact trust and support their expertise and competence.

The one thing that We the People are concerned about and has not been addressed is the "Constitutional Chain of Command" during a "National Disaster" such as a "Monetary Collapse"

This issue cannot wait until a disaster occurs and no viable plan concerning a lawful Constitutional Chain of Command is in effect.

For whatever reason the federal government has plans to “un-constitutionally” seize control of local governments and establish martial law which will not prevent anarchy, but fuel it. In April 1984 FEMA engaged a national "readiness exercise" under the code name of REX 84 which calls for the suspension of the Constitution and turning control of all local governments over to FEMA and using UN troops to keep law and order and not the People. There exists “NO CONSTITUTIONAL AUTHORITY” for the federal government to suspend the constitution, seize control of State and local government and turn over control to the “military” under martial law.

Amendment X *The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the states respectively, or to the people.*

The Constitution provides for the People under local government control to maintain law and order under posse comitatus. The People need to work under the authority of local government to compassionately help their neighbors in times of crisis. If the federal government wants to send aid we will take it.

Posse Comitatus Act (1878) - *Posse comitatus* means "the power or force of the county." The term refers to a doctrine of ancient English common law authorizing a sheriff to summon the assistance of the able-bodied male population above the age of 15. Appointed special deputies, these men would aid the sheriff in keeping the peace, executing writs, quelling riots, capturing felons, and otherwise enforcing the laws. Unlike the organized militia, a posse was usually gathered as needed. The practice continued in the United States, as the posse became a necessary American colonial and frontier tradition.

America has 18,443 towns and 297 cities with an estimated 318.9 million people; the federal government cannot possibly compassionately help We the People. All Americans “NEED” to come together and work together this is the way of a free and moral People. We the People will “NOT” go to FEMA camps, we will remain in our communities and work with our local Sheriff and local government authorities to help and care for our family, friends and neighbors.

FIFTH

Meet with our local Town and City Boards to address the same issues we shared with our Sheriff
