

## ***Hooked On A Problem***

*Roger Hodgson (Supertramp) – From the Album Eye of the Storm*

*I'm hooked on a problem, it won't go away*

*So many opinions, I don't know what to say*

*Can somebody help me, what they trying to do*

*Life used to be simple, life used to be fun*

*But it's all catching up on me, tell me what have I done*

*Can somebody help me, what they trying to do*

### ***Chorus:***

***Hey don't you ever get lonely, hey don't you wish it was easy***

***Facing the world on your own***

***I'm hooked on a problem, it won't let me go***

***The way people look at me feels like twenty below***

***Can somebody help me, what they trying to do***

*I'm walking a tightrope with stars in my eyes,*

*In danger of falling, won't you kiss me goodbye*

*Can somebody help me, what they trying to do*

*Repeat Chorus*

*If you know the answer, what I'm tryin' to say*

*I need a solution, 'cause I'm wasting away*

*Can somebody help me, what they trying to do*

*Won't somebody help me, what they trying to do*

*Can somebody help me, what they trying to do*
